REMARKS

In a telephone conversation with the Examiner on June 7, 2006, the Examiner stated that the Applicants' claims 1-26 would be in allowable condition if the Applicants were to file a proper terminal disclaimer over two other applications owned by the Applicants. As such, the Applicants are herewith filing a proper terminal disclaimer as requested by the Examiner. None of the claims are amended by this response.

In view of the accompanying terminal disclaimer, the Applicants respectfully submit that none of these claims now pending in the Application are subject to a non-statutory Double Patenting rejection. In addition, the Applicants submit that none of these claims now pending in the application are anticipated under the provisions of 35 U.S.C. § 102 or obvious under the provisions of 35 U.S.C. § 103. Thus the Applicants believe that all of these claims are now in allowable form.

Double Patenting

A. Judicially created obviousness type double patenting

In a telephone conversation of June 7, 2006, the Examiner stated that the Applicants' claims are rejected under the Judicially created doctrine of obviousness type double patenting as being unpatentable over the claims of U.S. Patent Application No. 09/883,547, now issued U.S. Patent No. 6,714,721.

The Applicants respectfully disagree and believes that the above identified patent application and the above identified commonly owned U.S. Patent are unobvious in view of the other, however, to further the prosecution of the above identified patent application, the Applicants are submitting herewith a timely filed terminal disclaimer in compliance with 37 CFR 1.321(c). As such, the Applicants submit that the basis for the Examiner's rejection of the Applicants' claims under the Judicially created doctrine of obviousness type double patenting has been

removed. As such, the Applicants respectfully request that the Examiner's rejection of the Applicants' claims be withdrawn.

B. Judicially created obviousness type double patenting

In a telephone conversation of June 7, 2006, the Examiner stated that the Applicants' claims are rejected under the Judicially created doctrine of obviousness type double patenting as being unpatentable over the claims of U.S. Patent Application No. 10/001,466, now issued U.S. Patent No. 6,707,984.

The Applicants respectfully disagree and believes that the above identified patent application and the above identified commonly owned U.S. Patent are unobvious in view of the other, however, to further the prosecution of the above identified patent application, the Applicants are submitting herewith a timely filed terminal disclaimer in compliance with 37 CFR 1.321(c). As such, the Applicants submit that the basis for the Examiner's rejection of the Applicants' claims under the Judicially created doctrine of obviousness type double patenting has been removed. As such, the Applicants respectfully request that the Examiner's rejection of the Applicants' claims be withdrawn.

Conclusion

In a telephone conversation with the Examiner on June 07, 2006, the Examiner indicated that the Applicants' claims would be allowable if the Applicants submitted a terminal disclaimer citing commonly owned patent applications 09/883,547 and 10/001,466. As such, the Applicants are herewith filing a terminal disclaimer as requested by the Examiner.

The Applicants respectfully submit that, at least because of the timely filed terminal disclaimer submitted herewith, none of the claims presently in the above identified patent application, are subject to rejection under the Judicially created, non-statutory Double Patenting doctrine. Consequently, the Applicants believe

that all these claims are presently in condition for allowance. Accordingly, both reconsideration of this application and its swift passage to issue are earnestly solicited.

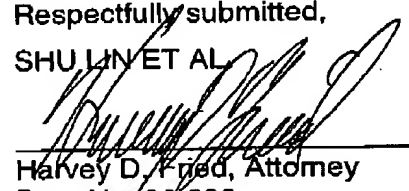

If however, the Examiner believes that there are any unresolved issues requiring adverse final action in any of the claims now pending in the application, or if the Examiner believes a telephone interview would expedite the prosecution of the subject application to completion, it is respectfully requested that the Examiner telephone the undersigned.

The Terminal Disclaimer fee 37 CFR 1.20(d) is included herewith. It is believed that no additional fees or charges are currently due. However, if a fee is due, please charge the additional fee to Deposit Account No. 07-0832.

Respectfully submitted,

SHU LIN ET AL
